

Notification

Consequent upon the unanimous approval of CW Agenda Item No. 01 "Dedicated Internship (preferably paid) in 8th Semester of Undergraduate Degree Programs in Agriculture and Allied Disciplines" in the 18th meeting of National Agriculture Education Accreditation Council (NAEAC) held on March 25, 2022 in the Mural Hall of Higher Education Commission (HEC), H-9, Islamabad.

The decision of the council is reproduced as follows:

Since the creation of HEC, the internship program was mandated for professional degree programs due to the significance of hands on training. However, in 2014 internship was halted due to law and order situation. By the grace of Allah now the law and order situation have been improved. Accordingly many progressive institutions have already mandated the internship again for the completion of degree program. After thorough discussion honorable members decided to re-implement the internship (preferably paid) in 8th semester to complete the professional degree in all agriculture and allied disciplines in the country.

You are requested to kindly implement this decision to strengthen the professional skills of undergraduate registered in agriculture & allied disciplines.

(Dr. Abdul Ghaffar)
